

**LOCALLY GROWN.
QUALITY PRODUCED.**

**RIGHT IN THE HEART
OF THE
TEMPLETON GAP
DISTRICT.**

Templeton Gap Prosciutto is a locally, family-ran operation just about 15 minutes outside of downtown Templeton located within one of the many beautiful districts of Paso Robles's American Viticulture Area. Spread across over 10 acres, Templeton Gap Prosciutto strives to create a unique, yet traditional, rich prosciutto product from only the best, carefully bred and selected 100% purebred Berkshire pigs, proudly marked as certified organic. Grazing among acres of pasture land filled with oak trees, acorns and a variety of grasses, our farm creates not only the ideal, stress-free environment for our pigs, but also the perfect drying conditions for each aging product due to the coastal breeze and temperate climate.

Our mission is to prove a local, but traditional, approach to creating the finest prosciutto products through our unique processing and aging methods, stress-free, animal welfare practices and the ideal growing environment. From start to finish, Templeton Gap Prosciutto wants to share with you what one-of-a-kind quality means to us.

**MEET ROBERT?
FOUNDER, PRODUCER
AND
AGRICULTURE
ADVOCATE**

The owner of Templeton Gap Prosciutto, Robert Ballo, has been raising pigs on his 26-acre property since he became a member of the community almost twenty years ago. Through his children's involvement within organizations like 4-H and FFA, his knowledge grew as he became quickly passionate for a simplistic lifestyle full of home-grown food and produce from right in his backyard. With family and friends, Robert strives to share with you his love for farm to table products - a type of quality you can't buy at the store.
